MINING, BUSINESS AND STOCKS

COLUMBUS CON.

Regular Quarterly Distribution Will Be Ordered By Directors Next Week.

NO CHANGE IN THE AMOUNT.

Twenty Cents a Share to be Sent Out To Shareholders- The South Columbus.

A report has been energetically circulated about the street for several days to the effect that the Columbus Consolidated Mining company would reduce, if it did not pass the next quarterly dividend entirely. But President and General Man-

ager Jacobson put some punctures in to the story today, when he stated that Secy. Snow had received instructions to send out notices to the directors calling attention to the fact that the date of the next regular monthly meeting is next Wednesday. The 25th inst. "Of course," said Mr. Jacobson to a "News" representative today. "I cannot speak for other members of the board and I have no way of telling what their desires are in the matter; but I am of the opinion that the dividend will be posted and that the amount will be the same as he last one, 20 cents a share, or the equivalent of \$60,000 on the entire capitalization of the company. The dividend will be payable next month, making the fourth paid during the present year. The company did not make its initial distribution until last January, it is also the foruth distribution in the history of the company. Altogether, the corporation has paid shareholders a total of 55 cents a share and if the board repeats what it did three months ago, the total for the year will be 75 cents a share." to the story today, when he stated

the total for the year will be 75 cents a share."

It has been ascertained from a reliable source, and confirmed by Mr. Jacobson this afternoon, that the company is in a very satisfactory condition financially; that there is more than enough money in the treasury of the corporation at the present time to pay two dividends of 20 cents a share; just how much more, the official did not care to say.

Mr. Jacobson says conditions at the mine are very satisfactory in every particular at the present time, and that everything is in fine shape for the winther campaign. Ore is being moved down the canyon steadily over the aerial tramway and unless the canyon is the scene of some severs storms with accompanying snowsides, there will be no let up during the winter months.

At the South Columbus mine develop-ment, work is progressing, but has been handcapped somewhat by a scar-city of miners. The new South Colum-bus boarding house will be opened on Oct. 1 and after that date the company will have provided very comfortable quarters for its employes.

SLIGHT RALLY TODAY.

Some of the Stocks Hit in Yesterday's Slump in Better Tone.

There were some big bunches of Uncle Sam Consolidated for sale at the opening of the regular session of the Salt Lake Stock & Mining exchange during the forenoon. The stock opened at \$1.47½ and was forced down 10 cents a share. The stock was readily absorbed, however, and railied on the open board, closing with the sale of 100 sharese at \$1.45. Beck Tunnel sold at \$1.60 during the regular call; but higher \$1.60 during the regular call: but higher on the open board. Crown Point recovered some from the tremendous slump of yesterday and appeared to be in fairly good demand around 70 cents on the open board. Iron Blossom also humoved.

Little trading was done among the unlisted stocks; Emma Copper went at 10 cents and Ohlo Kentucky at \$3. The closing quotations and sales UNLISTED STOCKS.

TO REDUCE OUTPUT.

New York, Sept. 19 .- Directors of the New York. Sept. 19.—Directors of the subsidiary companies of the Amalgamated Copper company, at a meeting in this city yesterday, voted to curtail the output of those companies by 50 per cent or more of the normal output. This action will take effect immediately. The companies represented were the Anaconda, Butte and Boston, Boston and Montana, and the Parrott Mining companies.

NEW PROVO CONCERN.

Oliver Mining & Leasing Company Has Been Launched.

Been Launched.

Provo. Sept. 19.—The Offiver Mining & Leasing company has filed articles of incorporation with the county clerk. The place of general business is American Fork. The company is organized to do a general mining business with a capital stock of \$20,000 in shares of the par value of 10 cents each. The officers are Thomas E. Steel, president: John H. Woolton vice president. These with John Chadwick. I. J. Wadley and Heber McNell form the board of directors. Mark If. Bezzant is secretary and treasurer.

An option to buy has been given by George H. Avercamp et al to the R. & S. Premotion company on the following Tintic properties.

A olic-half interest in the Union B mining claim.

mining claim.
A one-half Interest in the Combina-

A one-half interest to the White Stallion poining claim. The Last Hope offices claim. The consideration is \$12,500 and 10,600 shares of the capital stock in a company to be organized and which will own the properties covered by the option.

TO FILE ARTICLES

Company Will Operate Well Known Properties in the Camp Floyd District.

CHLORIDE POINT A SHIPPER.

Several Cars of High Grade Silver Ore Marketed in August-Tennel Projected.

Arrangements have been practically completed, it was learned today, for the filing of the articles of incorporation of the Lion Hill Consolidated Mining company. The formation of this corporation is a result of the recent nerger of the Chloride Point, Columbla and Northern Light mines on the Lion Hill section of the Camp Floyd. or Mercur, mining district.

W. E. Hubbard one of the promoters of the enterprise, stated that the ters of the enterprise, stated that the company has planned to carry on a very active campaign and to open the property upon a somewhat elaborate scale. The Chloride Point mine has been a producer of considerable consequence in the past and several car loads of high grade silver ore came from that property during the month of August. It is proposed, Mr. Hubbard states, to extend the lower Chloride Point tunnel into the mountain in which it is expected that some new ore bodies can be encountered within a very short time. Eventually, a tunnel will be driven into Lion mountain a very short time. Eventually, a tunnel will be driven into Lion mountain from the Ophir canyon side, but just how soon the project will be undertaken is a matter for the directors of the company to decide at some later time. By means of this proposed tunnel fremendous depth can be obtained and a means therefore of extracting the ore from the mine at comparative small expense shall be provided.

It is believed by many that the biggest silver mine in the state will be found on Lion hill. Although several properties on the hill have been operated, intermittently, extending over a period of perhaps 25 years, the fuct must be acknowledged that there has been very little attempt at systematic

been very little attempt at systematic mining. Plenty of "gophering" has been done and hundreds of thousands of dollars have been taken out in this

COPPER COMMENT.

Production Reduced 33,000,000 Pounds In Eight Months.

In Fight Months.

The copper mines of the United States, Mexico and Canada continue to report decreasing outputs. Eight months of the present fiscial year have passed and the production of copper on the American continent for this period shows an apparent decrease of nearly 32,000,000 pounds.

At the present rate of decrease, without allowing for enforced curtailment, a 5 per cent fall-off in output is probable for the full year or 60,000,000 pounds. Ordinarily the copper production should show an increase of 5 per cent so that there should be 120,000,000 pounds of copper less for the producer to take care of than was in prosepect at the beginning of the year.

The Boston News Bureau figures the production of copper in the United States, Mexico and Canada for the month of August at 93,298,107 pounds compared with a production of 102,593,034 pounds in August 1996, a de-

compared with a production of 102,-593,034 pounds in August 1908, a de-crease of 9,294,927 pounds for the

month.

The United Metals Selling company, the paper continues, appears to have again blundered in the policy governing the sale of its copper.

It has announced various prices for lake and electrolytic without any knowledge that at the reduced figures any volume of business would be created. The establishment of these figures has enabled competing producing and selling companies to undersell and to acquire what little business was offering. The result is that 75 per cent of the accumulation of between 150,000,000 and 200,000,000 pounds is either in the hands of this concern or is held in store by the mining empanies for

the hands of this concern or is held in store by the mining empanies for which it sells.

The Calumet & Hecla company has been falsely accused of being the disturbing factor which precipitated the recent collapse in prices and it has been stated that the Calumet policy has been stated that the Calumet policy has been that of maining a concession and been that of naming a concession and then looking for business at the re-duced price. This is absolute contrary to the facts.

to the facts.

The Calumet & Hecla was quick to detect the indications of a trade reaction, and while it may not have been the first to do business at a price under the high figures ruling last spring, it quickly saw the handwriting on the wall, and instead of announcing any price list, it sought by individual negotiation with the copper consumers on both sides of the water to sell as large an amount of copper as the market would take at the best price ob-

would take at the best price ob-To be sure, the company has an excess supply on its hands today, but it is selling copper right along and is not taking the trouble to announce to its competitors at what price or prices it is willing to do business. When the United Metals selling company or any other competing interest announced that it would sell electrolytic, for instance, at 22 cents, Calumet & Hecla quickly but quietly jumped in and said that it would supply the best grade of lake at the same figure.

There are important interests in the trade who alate that if copper was sauddenly put to 12 cents per pound, no streat volume of business would result. They take the ground that it is note at the moment a question of price, but a question purely of the ability to finance new construction. To be sure, the company has an ex-

THE LOS ANGELES EXCHANGE. Los Angeles, Sept. 18.-The new Los Los Angeles. Sept. 18.—The new Los Angeles-Nevada Mining stock exchange opened today. About 200 stocks were listed and 110,800 shares were sold at the morning session. Mayor Harper presided at the opening and officiated as caller for the first sale, which was 100 shares of Goldfield Consolidated at 7 a share. An afternoon call was held at 2 o'clock. Two calls daily will be the regular program. The attendance of brokers today was very large, the Nevada contingent being particularly active. About 150 seats have been sold on the exchange at \$200 per seat.

CONCENTRATES.

The stock exchange at Ely has re-sumed regular daily calls after having been closed for a month or so. General Manager Lafayette Hanchett of the Newhouse milles is expected return from the east tomorrow.

Grant Snyder has returned from making an inspection of the Cliff Mining company's property at Ophir. The ore and bullion settlements re-

ported late yesterday by McCornick & Company were: Crude ore and concentrate, \$57,000; base bullion, \$60,000. Henry M. Adkinson, manager of the property of the New England Gold and Copper company operating at Bingham, is in from camp on a brief business trip teday.

Ed F. Freudenthal and William Lloyd

The big mining suit of the Seven Troughs mining district, wherein the Seven troughs is the plaintiff and the Mazuma Hills the defendant, is on in the district court today, and will probably occupy the attention of the court tomorrow.—Winnemucca Silver State.

P. D. Delmas, who recently pur-hased the old Hunter and Hesson

METALS WERE IN GOOD DEMAND Edward McCarrick and E. J. Waugh expect to leave tomorrow on a trip to Inyo county, California, on a mining trip. Mr. Waugh is interested in some

Result of Better Tone and a Rise General Supt. Frank P. Swindler of the Helnze mining interests in this state has returned from a trip to the coast where he went to get a rest and recuperate his health. He will get back in the harness again a day or two. Of One and Three-Fourths In American Smelter.

STOCKS IN FAIR REQUEST.

of Pioche have been named by the county commissioners of Lincoin county as delegates to the American Mining congress which is scheduled to hold a session at Joplin, Missouri, in November, Opening Showed Downward Tendency But Was Soon Followed by Sharp Rallies.

New York, Sept. 19.—Prices of stocks started downward in a light volume of

New York, Sept. 19.—Prices of stocks started downward in a light volume of dealings. The decline in Wabash preferred. Northern Pacific. Southern Pacific and New York Central to large fractions. National Lead sold at an advance of 1%. Immediately after the opening, there were sharp rallies from a number of the opening declines.

The demand for stocks, which became evident soon after business began, continued until there was a fair sprinkling of advances, especially in the western railroads. Great Northern preferred sold 2 points above yesterday's closing and Union Pacific and Reading %. Pressure against the United States Steel stocks and renewed heaviness in Amalgamated Copper forced the market back afterwards and trading became quet. Prices were hardening at the end of the hour. Union Pacific was lifted 1% over last night and Great Northern preferred 2%, seeming to hold the list near the top. Business decreased to small proportions.

Bonds were firmer.

There was more demand for the metals as the result of a rise of 1% in American Smelting. The railroad list, though dull, hovered around the best prices of the morning. chased the old Hunter and Hesson property at Palisade, has encountered a wonderful body of ore in the new district and is now shipping from the claims. He is also negotiating with Heinze agents for the sale of the property for more than \$300,000. The Guggenhelms also have agents at Palisade examining the Delmas property and other properties of that district, and without a doubt some big sales will be made within the next few days.—Winnemucca Silver State.

LIVESTOCK.

WOO!

St. Louis, Sept. 19.—Wool, steady. Territory and western medium, 20924; fine medium, 19923; fine, 17920. PRODUCE.

Chicago, Sept. 19.—The wheat market was inclined to be weak today, because of lower prices for wheat at Liverpoool. A leading long was an active selier and this caused a decline of nearly 1 cent from the highest point of the day. The market later regained much of this loss on covering by shorts. December opened 4 lower to 4 higher at 38% to 39%, sold off to 38% and then railied to 39%. Sold off to 88% weak, owing to selling brought about by continued unfavorable weater. A decline at Liverpool also had a weakening effect. December opened unchanged to 480% in the first of 55%.

Oats were firm on buying by a leading buil. An improved demand for the cash grain was the chief strengthening influence. December opened 4 higher at 51%, sold at 51% and then advanced to 51%.

Inc. feature of trading in grovisions was liberal liquidation of October hold-

ine feature of trading in provisions was liberal liquidation of October holdings. This selling caused weakness in all deliveries. January pork opened 12½ lower at 15.52½ and sold off to 15.50. Lard 2½ %5 lower at 8.57½ and declined to 8.52½. Ribs opened 15 lower at 8.87½ and sold off to 7.80.
